[Ed. Note: In addition to the above books and specific article references, a large number of suggested posters, maps, web pages, scientific journal articles, application software, and other resources are available on CD-ROM to course instructors upon request. Organized by specific chapters, this CD includes over 100 additional referenced and cited scientific articles and over 150 referenced URL websites, along with other resource recommendations. Also included are a large number of references to the journal series *Micronesica: Journal of the University of Guam; Devoted to the Natural Sciences of Micronesia and Related Areas.*]
